Summary

Experienced **Java Developer** with 13+ years in **Microservices, Distributed Systems, and Backend Development**. Expertise in **Spring Boot, RabbitMQ, Redis, and Test Automation**. Proven ability to enhance system performance and optimize workflows, reducing manual efforts by **50%**. Successfully improved **service response time by 30%** by resolving N+1 query problems. Adept at designing scalable applications and improving software stability.

Experience

Eurofunk Kappacher, Hagenberg, Austria/India   Oct 2015 – Till Date
Software Developer, Operation Control and management systems
- Developed a **distributed web application** to handle real-life emergency situations.
- Implemented **Spring Boot Microservices** for seamless backend functionality.
- Optimized inter-service communication using **RabbitMQ and Redis**.
- Automated integration testing using Robot Framework and Cypress, reducing manual testing by **50%**.
- Led a **team of 5 developers**, mentoring them on microservices best practices and automation testing

Capgemini, Mumbai, India   Aug 2012 – Aug 2013
Software Developer, Post Sales Car Maintenance Application
- Designed and implemented modules for a **Post Sales Car Maintenance** application.
- Led **data migration** from Oracle to IBM Db2.
- Collaborated with technical teams and product owners to define requirements.

Amdocs, Pune, India   Aug 2008 – Feb 2012
Software Developer, Admin Console for Customer Care Application
- Developed an Admin Console for Customer Care Application to simplify configuration tasks.
- Reduced the need for specialized database skills, cutting down training costs.
- Enhanced application usability and streamlined administrative tasks.

Infosys Technologies Limited, Pune, India   Sep 2008 – July 2011
Software Developer, Customer Retention Application
- Enhanced a Customer Retention Application to support new technologies.
- Led a UI transformation project, improving application compatibility.

Education

University of Applied Sciences - Hagenberg, Austria   Sep 2013 – Sept 2015
Masters in Mobile Computing
- Master Thesis – Project:
  - Research & analysis of E-learning platforms and their in-built examination systems.
  - Customizing E-learning platform "moodle" to enhance its examination system capabilities.
- Interned at NTS prosigma GmbH (Linz, Austria) – Configured **Arquillian Testing Framework**.
- Conducted unit testing for **SCADA system (SIMATIC WinCC Open Architecture)** at Siemens ETM

University of Mumbai - Mumbai, Maharashtra, India   July 2004 - June 2008
Bachelor in Computer Engineering

Technical Skills

- Languages: Java (Oracle Certified Professional: Java SE 17 Developer)
- Frameworks: Spring and Spring Boot, SAFe framework.
- Configuration & Deployment: Gitlab-CI, Tomcat.
- Software's/Tools: IntelliJ IDEA.
- Database: MySql, Redis.
- Other: RabbitMq
